

Introducing the StrideOn

The StrideOn provides a modern, easy solution for people who have had a below the knee injury, where non-weight bearing is essential to recovery.

100% support – all the time

The StrideOn keeps your healing limb comfortable, off the ground and raised out of harm's way at all times.

Easy to use and highly maneuverable

Use it like a scooter, it takes seconds to learn, has a fantastic turning circle making it very useful around the home, shops or office – giving you the freedom to get on with your life.

Effortless and practical

Using the StrideOn is no more difficult than standing up or kneeling – you don't have to bear your weight on your arms.

Fully adjustable for comfort

Both the knee pad and handle bars are height adjustable which means you can customize settings for maximum comfort and support.

Using crutches is tiring

Keeping the healing limb off the ground is tiring – not with a StrideOn, you can stand normally and get on with your everyday life.

The StrideOn in detail

StrideOn Knee Walkers, exclusive to us, are used by thousands of patients around the world as an alternative to crutches for non-weight bearing injuries. They are preferred by clinicians and patients because of their unique features.

Made for indoors and outdoors

The unique turning circle allows the StrideOn to go where no other Knee Walker can. Invaluable say our customers.

Ergonomic and light weight

You will be amazed at how easy they are to use with their light weight aluminium frame designed to give you total stability.

Solid non-marking tyres

Kind to floors and puncture free.

Fully collapsible

Easy to fold and place in a car or for storage.

or go to

www.strideon.co.uk

Comes with a **FREE** basket. Customise, by ordering a Cup Holder and Knee Pad Cover, to make it more practical and comfortable.

Height adjustable handle bars

Adjust the handle bars for a perfect fit in seconds. The handle bar grips are soft and comfortable.

Braking system

Dual purpose brakes enabling the user to slow down and stop with the added feature of a parking brake. When parked this frees up both hands so you can carry out tasks safely.

Contoured knee pad

A deeply cushioned pad covered in wipe clean vinyl ensures a comfortable ride.

Height adjustable knee pad

Allows you to stand normally with your weight evenly distributed. Uniquely adjustable for either the right or left leg injuries.
